MSD Notice of Construction Freeman-Klotter Sewer Replacement

CINCINNATI – The Metropolitan Sewer District of Greater Cincinnati (MSD) will be replacing an existing aging and deteriorated combined sewer along Freeman Avenue between Klotter and McMicken avenues in the City of Cincinnati. About 216 linear feet of 18” combined sewer will be constructed in the Freeman Avenue right-of-way. The project is expected to start the week of June 27, 2016, with completion during Fall 2016.

Construction activities will occur primarily Monday through Friday during daylight hours, depending on the weather and the contractor’s schedule. Some weekend work may be necessary at times. MSD’s contractor is Smithcorp, Incorporated.

Typical construction-related disturbances such as noise, dirt and vibrations should be expected throughout the construction period. Access to homes and businesses will be maintained but could be temporarily delayed.

This project is part of Project Groundwork, MSD’s multi-year plan to reduce sewer overflows into streams and rivers in Hamilton County. Project Groundwork will improve the quality of our lives through cleaner streams, improved protection of public health, and enhancement of the communities where we live, work, and play.

For additional information about the project, please contact MSD Engineering Customer Service at (513) 557-3594 or MSD.Communications@cincinnati-oh.gov.
